

CUTSHEET

SUBSURFACE / NEUTRAL PENETRATING MAINTENANCE CLEANER / LIFE-CYCLE FORMULATED

GREEN UMBRELLA®

DeepClean w/SlipResist

CLARIFY AND CONDITION

Green Umbrella® DeepClean w/Slip-Resist™ is a high-performance architectural concrete subsurface floor cleaner, restorer, clarity enhancer, and surface conditioner for slip resistance. Engineered for concrete's unique properties and porosities - the penetrating, deep-cleaning action fights to breakdown grease, oil, and other contaminants - all without leaving any surface residue. An advanced alternative to high pH cleaners and their damaging etching and gloss reduction, the conditioning formula penetrates, absorbing into the concrete, to clean and clarify while adding excellent slip resistance. Finally working as a restorer to return substrate clarity, especially as an UHS burnisher pretreatment. @Profile&Polish™, use as a powerful surface astringent, increasing DOI. DeepClean w/Slip-Resist with GUnanoInside™ clarifies and conditions as a part of the Green Umbrella LifeCycle™ Maintenance System.

CUT LABOR

- Replaces the need for labor-intensive floor coatings
- Cleans & restores with one-pass of floor scrubber
- Lowest floor maintenance

CUT DOWNTIME

- Eliminates timely floor stripping
- Air dry within minutes
- Encourages the efficiency of floor scrubber maintenance program

CUT ENVIRONMENTAL IMPACT

- Alternative to off-gassing flooring
- Ph neutral & No VOC
- No phosphates, sodium hydroxides or butyls

VERSATILE ARCHITECTURAL APPLICATIONS

Ideal for **interior** or **exterior**, vertical or horizontal in *Demanding Applications*; warehouse/distribution centers, food service, parking decks, garages, hospitals, or similar & specifically for dye and pigment in *Decorative Color Applications*; retail spaces & showrooms, restaurants, business offices, lobby areas, museums, municipalities, airports, hospitals, schools, fire-stations, or most concrete surfaces.

EASY TO INSTALL - SIMPLE TO MAINTAIN

Dilute 30 parts water to 1 part DeepClean w/Slip-Resist by volume or 1 gallon of water to 1oz of cleaner for normal conditions. The cleaning solution may be run through an auto scrubber or a mop and bucket. In heavily soiled concrete, double scrub and allow 30 minute dwell time. A second application may be necessary. Burnish with UHS GreenGloss burnisher periodically.
